

The Ultimate Libido Boost*

Potency Nano-Plex™

A Premier Botanical Supplement

Immediate Libido Boost, Increased Energy, Strength & Rejuvenative Effects*

Recommended Use. Adults (age 12 up): sip 1 tsp. in 4 oz water daily in A.M.

"This breakthrough formula, **Potency Nano-Plex™**, incorporates 29 of the most time-honored botanicals and phytonutrients which support every aspect of both the male and female reproductive systems including the brain and circulation, especially to the penis, uterus and also the key glands – the adrenals and pituitary.*

We use beneficial probiotic micro-organisms with the unique ability to metabolize the broad range of these nutrients into cell-resonant nano-molecules (this means a full liberation of the phytonutrient factors broken down into ultra-small particles). This unique technology allows the nutrients to become extraordinarily biologically available, dwarfing all other delivery systems I have seen in my 35 years of clinical experience.

This formula not only supports, nourishes and boosts hormone production, but is **100% safe.*** Many people say they feel the difference of **Potency Nano-Plex™** in a single day. I invite you to experience the noticeable difference in your strength, energy, vitality and libido.*"

— Dr. Robert J. Marshall, PhD, CCN, DACBN

Key Benefits

- Immediate libido boost without side effects*
- Increased overall strength and energy*
- Promotes full body rejuvenation, especially the reproductive system (male and female)*
- Supports and nourishes hormone production*
